

Meet change with confidence with Infor FMS SunSystems Enterprise. You'll be able to adapt to change without changing, get the information you need when you need it, and grow in any market.

INFOR FMS SUNSYSTEMS ENTERPRISE

MEET CHANGE WITH CONFIDENCE.

Your traditional financial management system (FMS) locks you in to rules, structures, and business models that can't evolve to meet your changing needs. But you need to redefine your systems on the fly, and respond to changing requirements and evolving strategies. While *you* may be able to keep up with change, your traditional FMS can't—you're in a constant battle just to make your system meet the current needs of your business. It's time you got a financial solution that works the way *you* want it to—so when your needs change, your system can keep up. You can meet change with confidence and easily manage growth with Infor™ FMS SunSystems Enterprise.

ADAPT TO CHANGE WITHOUT CHANGING.

Your financial system should map to your business—not the other way around. But traditional systems are normally based on complex, segmented account codes that are difficult to maintain and change. Mirror your organization's business structure in a way that's easy to configure and extend with SunSystems Enterprise, which has an innovative design that was developed with change in mind. Not only will you be able to realign analysis and reporting to meet your evolving business needs, you'll immediately see and report on any change you make—with smart transactions that capture the detailed data you need in order to change without changing.

Because you'll never again be locked into a static structure, you'll be able to:

- ▶ Quickly incorporate new product lines, organizational changes, and acquisitions.
- ▶ Ensure measurements and key performance indicators (KPIs) match the state of your business today.
- ▶ Protect your investment for the future and limit reliance on IT for business-level needs.

GET THE INFORMATION YOU NEED—FAST.

It seems like far too often, you can't access the information you need at the time you need it—either because you haven't captured the right information, or because you can't easily retrieve it. But you can take control with SunSystems' unified ledger, which gives you fast, easy access to smart transactions that deliver not just data, but detailed information with context that you define.

Integrate information.

Imagine having all your ledger data combined in one place, whether it's from your general ledger, sales and purchase ledger, or even a user-defined ledger—without having to wait for batch updates or reconciliations. You'll be able to close your books faster—resulting in lower costs and greater efficiency—with a unified ledger.

INFOR FMS SUNSYSTEMS UNIFIED LEDGER

Unified ledgers offer an integrated transaction set that combines general ledger, AP, and AR for instant, consistent access to accurate data.

Infor FMS SunSystems Enterprise:

- > Has 20+ years of financial experience built in
- > Mirrors how you do business
- > Captures detailed data with smart transactions
- > Makes all your ledger data available for reporting in one data set
- > Cuts IT's load with powerful, easy-to-use, integrated reporting tools
- > Offers fast ROI and low total cost of ownership over the long run

Improve corporate performance.

Streamline reporting and planning cycles with a single, integrated environment. Plus, make it easy for users and stakeholders to understand how your business is performing with immediate reporting and analysis. Decision makers will get immediate access to the integrated finance and operational information they need to better manage your business.

Increase information accuracy.

Capture all the detail you need in the source system, and get a clear, complete view of your business from the very start. Finally, you can use spreadsheets as they were actually intended—to analyze the data in your system, not as an alternative place to store it. Because your financial information comes straight from the source, you can be confident it's accurate and up to date.

GROW IN ANY MARKET.

Whether growth means new markets, acquisitions, or products, you need to adapt and respond to unique requirements with ease—and speed. Standardize financial management and adjust accounting structures quickly, easily, and without breaking the bank.

You will:

Get built-in international expertise. If growth means going global, it's not enough to cover basic requirements like multiple languages and currency. You'll be ready to handle all the global essentials with SunSystems Enterprise, which has advanced features such as four-dimensional multi-currency and parallel accounting treatments.

Leverage one solution for all your needs. Simplify system management, streamline processes, and make your business less complex with one solution that brings everything together across different sites, countries, business units, companies, and corporate offices—and is flexible enough to handle their varying requirements.

Provide a consistent and auditable environment. Comply with local statutory, audit, international financial reporting standards (IFRS), and other regulatory requirements with built-in audit trails, alerts, and sophisticated data reconciliation. You'll be able to handle simultaneous financial reporting requirements in multiple countries so you can close your books faster.

MAKE BETTER FINANCIAL DECISIONS.

When you can see the impact of all your financial transactions as well as the trends that may affect your business tomorrow, you'll have a potent strategic advantage that benefits every aspect of your organization. Make better decisions with:

Financial management. Get immediate access to all finance and accounting information so you can make fast and effective decisions about all aspects of financial management, including nominal ledgers, payable and receivable ledgers, consolidation, corporate allocations, multiple currencies, dual-base currencies, fixed assets, and debtor management. You'll be able to meet multiple and

evolving accounting and reporting requirements, because our solutions are highly flexible. Rest assured you'll comply with local requirements, multiple GAAP standards, and evolving reporting requirements such as IFRS.

Performance management. Simplify your budgeting, forecasting, and other financial planning processes with SunSystems' budgeting and planning solutions. Turn your data into meaningful information, and then deliver it to the right people, in the right format, at the right time. You'll be able to streamline consolidation, reporting, and analysis of data from third-party organizations and legacy applications, and gain insight into every aspect of your business that matters to you. Plus, you'll be able to deliver financial and operational KPIs to managers at every level, helping them make better decisions, faster.

Purchase management. Get a tighter grip on your purchasing activities with SunSystems' complete web-based spending control and management solution, which you can deploy to large numbers of employees. Not only can your employees manage their own purchasing requirements, you can define rules and workflows that automate and enforce corporate policies, improving efficiency and saving money.

Order management. Take control of your sales, purchasing, and inventory management, and integrate your operations with your partners and customers. You can configure order processes and sequence your transactions the way you want

to, access any associated documents you need, and automatically update your ledger and inventory in real time.

Professional services automation. You'll be able to handle project accounting, resource management, billing, and web-based time and expense management. That means you'll improve staff utilization, optimize cash flow, and increase your revenue.

Document management. With just a few clicks of your mouse, you can automatically capture, authorize, and archive business documents such as invoices, purchase orders, and statements. You'll save time, money, and storage space, and comply with increasing regulations. Not only that, you'll support your company's green initiatives.

Integration platform. You'll be able to integrate Infor FMS SunSystems Enterprise with other enterprise and financial systems you already have, because of SunSystems' open architecture and unparalleled interoperability—especially valuable if you need a flexible financial solution to help you cope with unpredictable business conditions.

TAKE CONTROL NOW.

Meet change with confidence with Infor FMS SunSystems Enterprise, which is designed to support and reinforce today's best financial management practices and address your key challenges. You'll be able to adapt to change without changing, get the information you need when you need it, and grow in any market.

Plus you'll be able to make the right decisions, at the right time, every time. You can implement SunSystems Enterprise quickly and easily, leading to fast ROI and low total cost of ownership over the long run. In addition, you can reconfigure the solution quickly to support changes in your financial processes and business operations.

You'll get everything you need to:

- ▶ Easily accommodate change.
- ▶ Manage the expected and unexpected.
- ▶ Protect your investment.

- ▶ Concentrate on your business without worrying about your systems.
- ▶ Simplify support worldwide.

Plus, because your system supports future growth, you can:

- ▶ Expand internationally without having to add new systems.
- ▶ Get up and running quickly in a new country.
- ▶ Standardize financial management across countries.
- ▶ Comply with multiple regulatory and reporting requirements.

THERE IS A BETTER WAY.

At Infor, we work with a core belief. We believe in the customer. We believe that the customer is seeking a better, more collaborative relationship with its business software provider. And a new breed of business software: created for evolution, not revolution. Software that's simple to buy, easy to deploy, and convenient to manage. Our 70,000 customers in more than 100 countries stand with us. We look forward to your sharing in the results of our belief. There is a better way. For additional information, visit www.infor.com.
